

# Are You Ready?

Is Your Home ready

For

**Fire** SEASON?

## Create your defensible space NOW!

Creating defensible space is your property's front line of defense against wildfire. Creating and maintaining defensible space around your home can dramatically increase your home's chance of surviving a wildfire and improves the safety of firefighters defending your property.

### 30-foot Zone: Lean, Clean and Green

- 1) Remove all dead trees, plants, grass and weeds
- 2) Keep tree branches 10-feet away from your chimney and buildings
- 3) Create horizontal spacing between shrubs, trees and buildings
- 4) Create vertical space between grass, shrubs and trees.
- 5) Don't store firewood or other combustibles within 20-feet of buildings or under decks. Move or cover with fire resistant coverings.
- 6) Use 1/4" metal screening on roof, gable and sub floor openings
